DHHR Registration Certificate

Facilities which possess a radiation producing device must maintain and post a current Registration.

Badges

Individual and control badges must be stored outside of the radiation room

WV Board of Veterinary Medicine Requirements

A veterinarian shall store and maintain radiographs (including dental images), whether in film or digital format for a minimum of 3 years. All radiographs in any format shall have a permanent identification bearing the following:

- Client's name
- Patient's name
- Date
- Either left or right markers

Practices using x-ray equipment must have:

- Lead aprons and gloves
- Thyroid shields
- Personal radiation exposure badges
- Corresponding monitoring reports
